VITICULTURE: PRACTICAL ASPECTS OF PRODUCTION, PHYTOSANITARY ASPECTS AND CURRENT RESEARCH PRIORITIES

SafeCrop centre, 5-9 September 2005, San Michele a/A (Italy)

The course is hosted by the Istituto Agrario San Michele, SafeCrop Centre, in San Michele a/A, Trento, Italy.

Arrival Monday 5 September 2005
Course 6, 7, 8 September 2005
Departure Friday 9 September 2005

This course is intended for non professionals, post graduate students, with some basic knowledge in plant protection. The course will start with the basics of grape vine growing and grape production (first day) mostly in vineyards. The second day will be dedicated to phytosanitary aspects. Identification of the most important diseases and pests, their life cycle and the strategies of control. On the third day local researchers will present their research again from the observation of the problem in the field until the laboratory results. The final topic latter in the afternoon will be "the wine making" in the "cantina Istituto Agrario San Michele". The course will be fully in English. Weather permitting it will be overwhelmingly outdoor and can be physically demanding.

This course is open for all PhD students of the ETH, Uni Zuerich, Uni Basel and the PhD students of the SLU university of Alnarp and valued 1.5 credits. To acquire the credits a report on the three days has to be delivered electronically (cesare.gessler@ipw.agrl.ethz.ch).

Cost on site all included 300-350 € paid by the ETH plant sciences center for the PhD-students (four nights in double rooms and all meals). Travel to and from Mezzocorona on own responsibility.

Equipment: Good water proofed shoes, rain clothes, umbrella, clothes for warm weather.

Course Responsible: Cesare Gessler, Scientific Director SafeCrop Centre, Istituto Agrario San Michele all'Adige Via Mach 1, 38010 San Michele (TN) Italy, (e-mail: cesare.gessler@ismaa.it)> Tel 0039 3392973529/ 0041 16323971

Principal instructors: Enzo Mescalchin, Assistenza Tecnica, IASMA, Ilaria Pertot, SafeCrop deputy director; Claudio Ioriatti, & Luisa Mattedi, Centro Sperimentale, IASMA; Enrico Paternoster & Mario Tonon, Cantina IASMA.

Administration: Daniele Barbacovi (e-mail: daniele.barbacovi@ismaa.it), SafeCrop centre Tel. 0039 0461615239; During the course time also by mobilephone: 3358359262.

Please find information in how to reach San Michele a/A in the SafeCrop website, <http://www.safecrop.org/english/structure/transportation.html>

Course Program

Arrival: Monday 5 September 2005
